

HARIPRASATH RAVICHANDRAN

Network Security Engineer

+91 9047323350 | hariprasath.ofl@gmail.com | LinkedIn: linkedin.com/in/hariprasath-ravichandran | Chennai, India

PROFESSIONAL SUMMARY

Network Security Engineer with 3+ years of hands-on experience designing, implementing, and maintaining enterprise network security infrastructure. Expertise in firewall administration (FortiGate, Cisco ASA, Checkpoint, Palo Alto), VPN configuration, SIEM monitoring (Splunk, SolarWinds), and incident response. Proven track record of reducing mean time to resolution (MTTR) by ~25% through proactive monitoring and threat detection. Skilled in ITIL-based change management, SOC operations, vulnerability management, and cross-functional collaboration. Seeking a challenging Network Security role to leverage deep technical skills and drive organizational security posture improvement.

CORE COMPETENCIES

- **Firewalls & VPN:** FortiGate, Cisco ASA, Checkpoint, Palo Alto (L1), IPSec VPN, SSL VPN
- **Networking:** LAN/WAN, TCP/IP, BGP, OSPF, Routing & Switching, Cisco Meraki, Viptela, SD-WAN
- **SIEM & Monitoring:** Splunk, SolarWinds, ServiceNow, Log Analysis, Real-Time Alerting
- **Security Operations:** Incident Response, Threat Detection, Vulnerability Management, SOC Operations
- **Cloud & Infrastructure:** Cloud Network Security, Routers, Switches, Network Architecture
- **Process & Compliance:** ITIL, Change Management, SLA Management, SOP Documentation, Audit Compliance
- **Operating Systems:** Linux, Windows Server
- **Soft Skills:** Cross-functional Collaboration, Root Cause Analysis, Escalation Management

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Chennai, India

Assistant System Engineer – Network Security May 2022 – Present

- Configured, deployed, and managed enterprise firewalls (FortiGate, Cisco ASA, Checkpoint) and VPN solutions, ensuring robust perimeter defense and zero unplanned downtime SLA adherence.
- Monitored network traffic and security events using Splunk SIEM; proactively responded to real-time alerts, reducing mean time to resolution (MTTR) by ~25% through optimized incident workflows.
- Led firewall rule audits, policy optimization, and change management processes for customer escalations and ISP coordination, ensuring compliance with ITIL standards.
- Designed and maintained IPSec and SSL VPN tunnels for remote access and site-to-site connectivity, supporting 500+ end users across multiple branch locations.
- Performed vulnerability assessments and coordinated remediation activities; documented findings in post-incident reports and tracked closure via ServiceNow ticketing system.
- Authored and maintained security configuration SOPs, network diagrams, and post-incident reports for audit readiness and future reference.
- Collaborated with cross-functional teams (infrastructure, cloud, application) to implement internal and cloud-based network security policies.
- Supported NOC/SOC operations including triage, escalation handling, and root cause analysis for P1/P2 network incidents.

EDUCATION

Bachelor of Engineering – Electronics & Communication Engineering 2018 – 2022

Anna University, Chennai, India

CERTIFICATIONS & TRAINING

- Fortinet NSE 4 – Network Security Professional (Fortinet Certified)
- Cisco CCNA – Cisco Certified Network Associate (In Progress / Completed)
- CompTIA Security+ – (Pursuing / Completed)
- Splunk Core Certified User

- ITIL Foundation Certificate in IT Service Management

KEY ACHIEVEMENTS

- Reduced network incident MTTR by 25% through implementation of automated Splunk alerting and structured escalation runbooks.
- Successfully managed firewall change requests with 100% SLA compliance over 12 consecutive months.
- Streamlined VPN provisioning process, cutting onboarding time for remote users by 40%.
- Recognized by TCS project lead for outstanding documentation and knowledge-transfer contributions during SOC audits.

TECHNICAL SKILLS

Category Skills

- **Firewall Platforms:** FortiGate (FortiOS), Cisco ASA, Checkpoint GAIA, Palo Alto PAN-OS
- **VPN Technologies:** IPSec Site-to-Site, SSL VPN, FortiClient, Cisco AnyConnect
- **Network Protocols:** TCP/IP, BGP, OSPF, EIGRP, STP, HSRP, VRRP, DNS, DHCP, NAT, QoS
- **SD-WAN / SASE:** Cisco Viptela, Cisco Meraki, FortiGate SD-WAN
- **Monitoring Tools:** Splunk SIEM, SolarWinds NPM, PRTG, Wireshark, Cisco Stealthwatch
- **ITSM / Ticketing:** ServiceNow, JIRA
- **Scripting:** Basic Bash, Python (for automation tasks)
- **Cloud Security:** Azure Network Security Groups (NSG), AWS Security Groups (Familiar)
