

HARIPRASATH RAVICHANDRAN

Network Security Engineer

+91 9047323350 | hariprasath.ofl@gmail.com | LinkedIn: [linkedin.com/in/hariprasathr](https://www.linkedin.com/in/hariprasathr)
Chennai, India

PROFESSIONAL SUMMARY

Network Security Engineer with 4+ years of proven expertise designing, implementing, and managing enterprise-grade network security environments expertise in firewall configuration & administration (FortiGate, Checkpoint, Palo Alto), VPN configuration, SIEM analysis & security monitoring (Splunk, SolarWinds), and incident management & response. Proven track record of improving incident resolution efficiency (MTTR) by ~25% through proactive threat monitoring and threat detection & mitigation. Experienced in ITIL-based change management, SOC operations, vulnerability management, and cross-functional collaboration. Seeking a enterprise Network Security Engineer position to leverage deep technical skills and drive organizational enterprise cybersecurity posture enhancement.

CORE COMPETENCIES

- **Firewalls & VPN:** FortiGate, Checkpoint, Palo Alto Networks Firewall Administration, IPSec VPN, SSL VPN
- **Networking:** LAN/WAN, TCP/IP, BGP, OSPF, Routing & Switching, Cisco Meraki, SD-WAN
- **SIEM & Monitoring:** Splunk, SolarWinds, ServiceNow, Security Log Analysis
- **Security Operations:** Incident Response, Threat Detection & Analysis, Vulnerability Assessment, SOC Monitoring
- **Cloud & Infrastructure:** Cloud Network Security, Routers, Switches, Network Architecture
- **Process & Compliance:** ITIL Change Management, SLA Management, SOP Documentation, Audit Compliance
- **Soft Skills:** Cross-functional Collaboration, Root Cause Analysis, Escalation Management

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Chennai, India

Assistant System Engineer – Network Security (May 2022 – Present)

- Implemented, administered, and optimized enterprise-grade firewall infrastructure firewalls (FortiGate, Checkpoint) and VPN solutions, strengthening perimeter security posture and 99.9% SLA uptime compliance.
- Analyzed network traffic and security events using Splunk SIEM; investigated and mitigated to real-time alerts, reducing mean time to resolution (MTTR) by ~25% through optimized incident workflows.
- Conducted firewall policy audits, firewall rule-base optimization, and change management processes for critical customer escalations and ISP coordination, maintaining compliance with ITIL standards.
- Studied and maintained IPSec and SSL VPN tunnels for remote access and site-to-site connectivity, supporting multiple vendors across multiple branch locations.
- Performed vulnerability assessments and coordinated remediation activities; documented findings in post-incident reports and tracked closure via ServiceNow ticketing system.
- Authored and maintained security configuration SOPs, network diagrams, and post-incident reports for audit readiness and future reference.
- Collaborated with cross-functional teams (infrastructure, cloud, application) to implement internal and cloud-based network security policies.
- Provided L1/L2 support for NOC/SOC operations including triage, incident escalation management, and root cause analysis for P1/P2 network incidents.

EDUCATION

Bachelor of Engineering – Electronics & Communication Engineering (2017 – 2021)

Kongu Engineering College, Erode (Anna University)

CERTIFICATIONS & TRAINING

- Fortinet NSE 4 – Network Security Professional
- Cyber Resilience - ManageEngine User Academy
- Cisco Networking & Security Fundamentals - Cisco
- CompTIA Security+ – (Pursuing)
- AWS Certified Cloud Practitioner - Amazon
- ITIL Foundation Certificate in IT Service Management

KEY ACHIEVEMENTS

- Reduced network / firewall incident MTTR by 25% through implementation of automated Splunk alerting and standardized incident response run books
- Efficiently managed firewall change implementation requests with 100% SLA compliance.
- Optimized VPN user provisioning workflow, cutting onboarding time for remote users by 40%.
- Recognized by TCS project lead for exceptional technical documentation and knowledge transfer to teammates

TECHNICAL SKILLS

- **Firewall Platforms:** FortiGate (FortiOS), Checkpoint GAIA, Palo Alto Networks PAN-OS
- **VPN Technologies:** IPSec Site-to-Site, SSL VPN, FortiClient, Cisco AnyConnect
- **Network Protocols:** TCP/IP, BGP, OSPF, EIGRP, STP, HSRP, DNS, DHCP, NAT
- **SD-WAN / SASE:** Cisco Meraki, FortiGate SD-WAN
- **Monitoring Tools:** Splunk Enterprise, SolarWinds Network Performance Monitor, Wireshark
- **ITSM / Ticketing:** ServiceNow, JIRA
- **Cloud Security:** Microsoft Entra ID (Azure AD IAM), AWS Security Groups & Cloud Security Basics
